DETAILED ACTION

1. Claims 1-15 are pending in this application.

Election/Restriction

2. Applicant's election of Group I without effective traverse in the reply filed on 06/12/2009 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 6-9 and 13-15 are withdrawn from prosecution as being drawn to non-elected inventions of Groups II-III.

Information Disclosure Statement

3. Applicant's Information Disclosure Statement, filed on 11/14/2006 has been acknowledged. Please refer to Applicant's copies of the 1449 submitted herewith.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2, 4-5 and 10-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention:

a. In claim 1, the phrase “a divalent or trivalent heteroatom” is indefinite. What is covered and what is not? It is recommended that applicants recite specific divalent and trivalent heteroatoms to overcome this rejection.

b. The proviso when $m = 0$ and $m = 1$ is not clear, because of the definition of $R_{11} = H$. Do applicants consider $R^{11} = H$ as $m = 0$ or $m = 1$? What is the definition of Y when R^{11} and $R^{12} = H$? The same is true for the proviso that deals with $o = 0$ and $o = 1$.

c. Claims 10-12 provides for the use of a compound of formula I, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 10-12 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under

35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Objection

6. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
